Any references to potential returns, financial performance, or investment outcomes are illustrative in nature and should not be interpreted as guarantees of future performance. Gold investments are not suitable for all investors. Investments in gold and precious metals may involve significant risks, including but not limited to market volatility, price fluctuations, liquidity risks, storage considerations, geopolitical factors, currency movements, and changes in global economic conditions. The price of gold may rise or fall over time and past performance of gold or related assets does not guarantee future results.

Goldcrest Inc., operates a digital savings platform designed to provide users with access to physical gold ownership through a technology-enabled system. Gold units issued through the platform are intended to represent interests in physical gold stored in secure vaulting facilities operated by independent custodians or approved storage providers. While reasonable steps are taken to ensure transparency, auditing, and reporting of stored gold reserves, users acknowledge that the storage, auditing, and verification processes may be conducted by third parties and are subject to operational and logistical constraints. Participation in the Goldcrest platform involves financial risk, including the possibility of partial or complete loss of invested capital. Investors should carefully consider their financial circumstances, investment objectives, and risk tolerance before participating. Individuals are strongly encouraged to conduct their own independent due diligence and to consult with qualified financial advisors, legal professionals, and tax consultants prior to making any investment decisions. Nothing contained in any presentation, document, website content, or communication from Goldcrest Inc., should be interpreted as financial advice, legal advice, tax advice, or investment advice. Goldcrest Inc., its founders, representatives, affiliates, and employees do not act as financial advisers or fiduciaries to participants and do not guarantee the performance of any investment made through the platform.

Participation in the platform's referral or reward program, if applicable, is entirely optional and designed solely as a marketing incentive to reward users who introduce others to the platform. Such programs do not constitute investment advice, financial guarantees, or promises of income. Earnings from referral activities may vary and are dependent on a variety of factors including participation levels, network activity, and platform policies. All information provided by Goldcrest Inc., is believed to be derived from reliable sources; however, Goldcrest Inc., makes no representation or warranty, express or implied, regarding the accuracy, completeness, or timeliness of any information presented. The company reserves the right to modify, update, or discontinue any aspect of the platform, including policies, programs, or services, without prior notice where permitted by applicable law.

This material is intended solely for general informational purposes and does not constitute an offer to sell or a solicitation of an offer to buy securities, investment contracts, or financial instruments in any jurisdiction where such offer or solicitation would be unlawful. Access to the Goldcrest platform may be subject to regulatory requirements, jurisdictional restrictions, or eligibility criteria depending on the user's location. By accessing the platform, participating in the program, or reviewing any materials related to Goldcrest Inc., you acknowledge that you are solely responsible for evaluating the merits and risks associated with any investment decision. You further acknowledge that you will perform such independent investigations and due diligence as you deem necessary, including consultation with your own legal, financial, and tax advisors. Past performance is not indicative of future results. No representation is made that any participant will achieve profits or avoid losses. Any projections, forward-looking statements, or hypothetical examples provided are purely illustrative and are subject to risks, uncertainties, and assumptions that may cause actual results to differ materially.

Chairman's Foreword

Goldcrest Inc., was built on a simple yet powerful idea — that access to real assets should be both inclusive and efficient. What began as a focused initiative to connect gold supply with a limited group of investors has evolved into a broader vision of building a globally accessible gold-backed financial ecosystem. Our early journey has been deliberate, disciplined, and rooted in creating long-term value rather than short-term momentum.

Goldcrest operates with **structural integrity, financial discipline, and operational transparency** at every stage of its growth. We are committed to building a platform that is not only scalable, but also resilient across market cycles. Looking ahead, we are actively pursuing **strategic collaborations across mining, refining, and financial infrastructure**, alongside hosting regional and global engagement events to strengthen our international presence.

These initiatives are designed to position Goldcrest as a trusted participant within the evolving landscape of digital and asset-backed finance.

Our focus remains clear — to establish a platform that delivers **sustainable growth, global accessibility, and enduring value** for all stakeholders.

– Nikolai Vasilev
Chairman, Goldcrest Inc.,

About Us

Goldcrest Inc., is a global digital gold platform connecting physical gold supply directly to modern investors.

Through our mine-to-vault model, we source gold from partner mining operations in South Africa, refine and securely store it in professional vault facilities, and enable users worldwide to accumulate, track, and verify ownership digitally.

The platform is designed not only to provide access to gold as a store of value, but also to create structured earning opportunities through performance-based programs that reward both individual participation and ecosystem growth.

With operational presence across Netherlands (Headquarters) and South Africa (Mining & Supply), Goldcrest combines physical asset strength with scalable financial infrastructure, ensuring global accessibility and operational efficiency.

Our technology-driven approach emphasizes transparency, traceability, and security, allowing users to monitor reserves, verify holdings, and interact with gold as a modern financial asset. Our long-term vision is to build one of the world's most trusted platforms where gold evolves from a passive store of value into a dynamic, accessible, and income-generating asset class for a global audience.

The Opportunity Landscape

Global gold markets are expanding rapidly, yet remain constrained by structural inefficiencies—creating a significant opportunity for innovation.

Inflation

Inflation eroding fiat currency value

Volatility

Increasing volatility in global financial markets

High Costs

High storage and logistics costs

Opacity

Lack of transparency in many gold investment platforms

Limited Access

Limited access to wholesale gold markets

Cross-Border Complexity

Cross-border gold ownership is complex

🌀 A \$200B+ global market remains underserved—driven by inefficiencies in access, transparency, and infrastructure.
